Publications

Publication type: Book
Title: Best Practices for Building Web Applications for Domino 8
Description: Book created in wiki format by IBM Redbooks and developerWorks for public domain.

Employment History

IBM

Start Date: Jun 2004
End Date: Currently Employed
Position/Title: IT Specialist
Responsibilities/Achievements: I am an application developer supporting the Marketing and Human Resources business areas. I developed Lotus Notes and Domino web applications for a world wide audience. I also worked on back-office activities as a focal point, mediating vendors affairs with IBM. I am a coordinator of a team in Brazil, the AS Notes Community, responsible for promoting the use of Lotus technologies in Brazil.

Procwork

Start Date: Jun 2004
End Date: Apr 2007
Position/Title: IT Specialist
Responsibilities/Achievements: I was placed in IBM Brazil's technology center in a global reach organization called Application Services (AS) Global Sourcing, where I was able to develop applications for global delivery teams using Lotus products. I gained extensive expertise on IBM business processes and applications.

WJ

Start Date: Jan 2004
End Date: Jun 2004
Position/Title: IT Analyst
Responsibilities/Achievements: On this IBM Premier business partner, I developed systems for large companies like Souza Cruz, Sulamerica and WEG. I also administered official IBM training sessions for nationwide companies.

Cyberlynxx

Start Date: Oct 2002

End Date: Jan 2004
Position/Title: IT Analyst
Responsibilities/Achievements: For this IBM premier business partner, I worked on a critical system and joined outsourcing projects for Coca-Cola, Fundacao Roberto Marinho, CNI, AXA Insurance, Petrobras, Embratel, Shell and several other companies. I was the technical team lead in a software plant for Projexx, a revolutionary Internet workflow software product for project managers. I also worked on several outsourcing projects for IBM.

Hostnet

Start Date: Aug 2002
End Date: Oct 2002
Position/Title: Trainee
Responsibilities/Achievements: I worked with remote help-desk and Internet server administration. I joined the remote team in charge of data-centers support and auditing activities. I helped with the franchising affairs, including client inclusion.

Bennett Methodist University

Start Date: Aug 2002
End Date: Oct 2002
Position/Title: IT Instructor
Responsibilities/Achievements: I taught IT Basic Computer Concepts, which included operating systems fundamentals, office suites and Internet access. This initiative was maintained by governmental programs of social inclusion.

FMC Technologies

Start Date: Dec 2000
End Date: Jan 2002
Position/Title: IT Analyst
Responsibilities/Achievements: I coordinated the telecommunications issues. I developed and administered diverse e-mail, workflow and internet applications. I joined the Enterprise Resources Planning (ERP) and e-mail migration process team. I offered trilingual help-desk and desk-side support to world wide clients, vendors and employees. I contributed with the help-desk system redesign. I managed software assets and access controls.
