CERTIFICATIONS

- IBM Certified [IT Specialist](#)
- Scrum.org Certified [Professional Scrum Master \(PSMI\)](#)
- ITIL Foundation Certificate in [IT Service Management v3](#)
- IBM Certified Solution Designer - [Rational Unified Process \(RUP\) v7.0](#)
- IBM Certified Specialist - [Rational Team Concert v3](#)
- IBM Certified Associate - [Services Oriented Architecture \(SOA\)](#)
- IBM Certified Associate Developer - [Collaborative Solutions](#)
- IBM Certified Database Associate - [DB2 UDB v8.1](#)

PUBLICATIONS

- [Best Practices for Building Web Applications for Domino 8](#), book/wiki created by IBM [Redbooks](#).

VOLUNTEERING

Volunteer for [ADRA](#) (Adventist Development and Relief Agency); for the [Street Store](#) NGO events; and for [Rio 2016](#) Olympics and Paralympics Games in the International Protocols area.

TECH SKILLS

- **AppDev:** developed [Java](#) applications using related frameworks, including Spring Boot (Web, Core, Data, Security, Actuator, Batch, Cloud, Netflix), Log4J2, JPA, Hibernate, JUnit, Mockito, Maven and Gradle; created REST microservices; designed APIs interfaces with [Oracle API Gateway](#); interconnected enterprise applications with SOA using [Oracle Service Bus](#); experienced coding and consuming REST and SOAP Web Services, including WSDL and Swagger definitions; integrated legacy systems with [ERP](#), [CRM](#) and [BI](#); wrote complex [SQL](#) commands and queries, including stored procedures, functions, views and triggers; wrote programs with [Eclipse](#), [Visual Studio Code](#), [IntelliJ](#), etc; generated reports with [Crystal Reports](#) and [Cognos](#); implemented robotic process automations with [Selenium](#) and [UIPath](#); developed basic [Android](#) applications, experienced with relational databases like [DB2](#), [MySQL](#), [Oracle](#) and [SQL Server](#); used No-SQL databases like [MongoDB](#); basic knowledge of [SAP](#); wrote [XML/XSLT](#) artifacts and variants, translated and internationalized global applications; used [Git](#) ([GitHub](#), [GitLab](#), [BitBucket](#)) and [SVN](#) repositories for code management; guaranteed code quality and security with [Sonarqube](#); basic usage of the [Kotlin](#) language; integrated applications using [OLE/macros](#) for MS [Office](#) and other office suites.

- **Web:** developed applications using [NodeJS](#), [PHP](#), [.NET](#) and [JSP](#); led the development of sophisticated web apps; good experience with [JavaScript](#) and interactive [HTML 5](#); used [AJAX](#) and [JSON](#) capabilities for Website using the MVC model; used libraries such as [jQuery](#) and [Dojo](#); designed Apps using JavaScript frameworks, including [Angular](#) and [React](#); understanding of APIs; knowledge of models like [Material Design](#) and [Bootstrap](#); wrote [CSS](#) style sheets; experienced with [SEO](#); achieved high expertise with [WordPress](#) and [Joomla](#) CMS Portals; deployed e-commerce Websites using [Magento](#) and [Prestashop](#); implemented open source solutions using: [PHPbb](#) forum, [phpMyAdmin](#) administrator and other OSS; integrated social media tools, including: [OpenSocial](#), [Facebook](#), [Twitter](#), etc.; used design tools including: [Dreamweaver](#) and [Photoshop](#); checked security and accessibility using tools such as [Rational AppScan](#); adhered and reviewed [W3C](#) standards; used [URL](#) and [HTTP](#) methods capabilities; experienced with authentication, session management and [cookies](#); designed state-of-art web applications for [Domino](#) with [XPages](#); integrated and customized [SharePoint](#) and [Connections](#) environments.

- **Design:** applied [Scrum](#) principles while working as a [Scrum Master](#) in several projects; managed applications' lifecycles; followed [PMI](#) principles for leading projects, including integration, scope, time, cost, quality, HR, communication, risk and procurement management; designed software architecture; used [Agile](#) software development methodology; made use of the [Rational processes](#); designed and analyzed [UML](#) diagrams with products like [Jira](#), [Confluence](#), [Rational Software Architect](#) and [Enterprise Architect](#); used [Rational Team Concert](#), [Project](#) and [Trello](#) for management; wrote technical documents; created relational databases diagrams; implemented automated testing; managed the utilization of reuse components.

- **SysAdmin:** managed environments and features on [Amazon AWS](#), [Heroku](#) and [Google Cloud](#); supported integration pipelines and continuous delivery with DevOps tools (CI/CD); used [Jenkins](#) and [Git Hub Actions](#) for builds and automation; knowledge of application services, including: [Apache httpd](#), [Oracle WebLogic](#), [IBM Websphere Application Server](#), [Apache TomCat](#) and [JBoss](#); created virtual environments and machines with [Docker](#), [Kubernetes](#), [Xen Server](#), [VMWare](#) and [VirtualBox](#); analyzed [Splunk](#) logs; administered [Windows](#) and Unix* servers (including Linux distros and [IBM AIX](#)); good notions programs like SSH and FTP clients and editors (like [puTTY](#), [Filezilla](#), VI); worked in large datacenters environments; wrote and executed [shell](#) scripts; setup [LAMP](#) environments; experienced with [TCP/IP](#) network concepts, including: [firewalls](#), [DNS](#), [VPN](#), [DHCP](#), and other; configured routers, [NAS](#) and wireless networks; provided level 2 and 3 support.

EXPERIENCE

- [AB INBEV](#) (CAMPINAS, BRASIL)

- Biggest brewery in the world, based in Belgium, and known in Brazil as Ambev.

Activities: Coordination and application development (since 10/2020).

Coordination of the back-end application development for the Orders pod of the BEES' application, a B2B solution for beverage sales at global level.

- [ZUP](#) (CAMPINAS, BRASIL)

- Digital transformation and innovation company from the Itaú group, focused on development.

Activities: Application development (from 03/2020 to 10/2020).

Back-end development for Banco Itaú, in the Home and Menu squad. Functionality distribution for the Android and IOS Super APP. Support with team management, schedules and delivery. Information collection and interface with clients for estimates and problem solving. Analysis and design of internal or legal solutions, such as central bank demands.

- [GLOBAL HITSS](#) (CAMPINAS, BRASIL)

- America Movil's group company, holding the brands Claro Brasil, NET and Embratel.

Activities: Application development, technical lead (from 02/2016 to 03/2020).

Development of Web applications, integrations and microservices. Application development for SOA and mobile devices APPs. Solution development using Java and various languages and market frameworks. APIs gateway design. RPA apps development (robotic process automation). Integration of ERPs, CRMs and legacy systems using solutions like APIs and WebServices. Attended Oracle corporate training. Creation of a free of English language study group. Project management of several internal demands. Client visits to requisite collection, including NET, Claro and Petrópolis. Technical and commercial client proposal creation. Management of the corporate application servers' reorganization and other DevOps initiatives.

- [IBM](#) (CAMPINAS, BRAZIL)

- World's biggest enterprise for hardware, software and services, and Brazil's biggest IT company.

Activities: Architecture, technical lead, project management, business analysis (from 06/2004 to 01/2016*).

Acted with project management, systems architecture, technical leadership, development and maintenance of several applications, including: SiteServ, Lease Management Information System, Worldwide Building Database, Badge Requests, Opportunity Approval Tracking, DealWorkflow, Announcement Information Tool, IBM Club, Market Intelligence; bluemine and other. Management of an internal account with more than seventy professionals. Leadership of the innovation governance for the groupware team. Coordination of the IBM Collaboration technical community. Acted as an academic ambassador for recruiting students in universities. Mentoring of professionals in IBM technologies Speaker at seminars for technical communities. Controlling of component reuse (IRAM), and of external outsourcing (GeNO Liquid). Acted as a Scrum Master and evangelist of Scrum principles. Leadership of the activities related to Agile adoption and software lifecycle.

- [ISW](#) (SYDNEY, AUSTRALIA)

- Awarded-winning Australian IT company with strong performance in Asia/Pacific.

Activities: Technical lead, project management, pre-sales, consulting (from 11/2010 to 05/2012).
